

## Raeburn Heights

Client: Fife Council • System: Wall System 2 • Material: Mineral Wool, Silicone Render  
Sector: High Rise, Residential

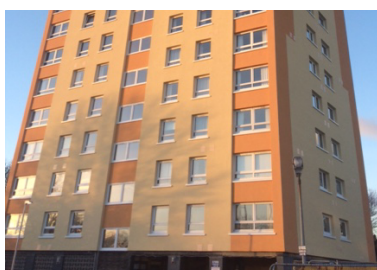

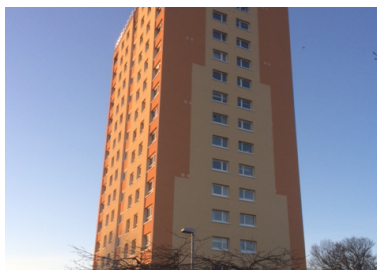

Raeburn Heights is a 16 storey residential high rise block in Glenrothes, Fife which has recently undergone a £350,000 refurbishment to install external wall insulation and other energy efficiency measures.

Made up of 61 flats, the residential building underwent the installation of SPSenviowall's Wall System 2 utilising 110mm adhesively fixed mineral wool with silicone topcoat.

The work carried out on the tower block is expected to reduce energy bills for its residents by 25% and has improved the look of the local area with its new attractive façade.

### The Benefits of SPSenviowall's Wall System 2:

- Solutions for most masonry substrates available
- Extensive range of finishes available
- A range of insulation options offered
- Extremely cost effective
- Thermally enhances and protects any facade

### CPD events available
