

Blagdon House

Installer: Greenhouse Developers Ltd • System: TS Rail • Material: SpeedySlip Brick Slips
Sector: New Build, Residential, High Rise

One New Malden is a striking 12-storey landmark development on Blagdon Road in the heart of New Malden offering 1, 2- and 3-bedroom apartments and penthouses for sale. The building features an eye-catching, contemporary exterior which replaces the older and tired looking structure while still maintaining an element of its former character as vacant office accommodation.

the contractor and the long-term erection of scaffolding disrupting pedestrian traffic and nearby businesses.

It is sympathetic to the local surroundings, which consist of the sandstone colour of nearby high-rise buildings while incorporating the red brick of the surrounding buildings.

Additional advantages include the reduction of construction costs with fewer deliveries being made to site and reduced site storage due to the size of flexible brick slips, which provide faster returns to the developer making our systems hugely cost-effective.

SPSEnviroWall was able to help deliver on the developer's requirement to create a modern and contemporary new build apartment building with the supply of its flexible SpeedySlip brick slips and the colour matching service that it offers.

Our materials reduce project delays, enhance the quality of buildings and reduce carbon footprint.

The Benefits of SpeedySlip Brick Slips:

Its lightweight and flexible compositions truly open the possibility of design while still providing the desired traditional and natural appearance of real brick.

- BBA, KIWA and BOPAS Accreditation
- A2 rating or better on all available key system components
- Lightweight system
- Cost-effective compared to traditional brick slips
